Project milestone

Name: Jihui. Sheng

ID: 11539324

Course: Cpt_S 427

Title:

Online Game Security

Description:

Since after searching a lot of security models, I am not sure if I can make a security model. Therefore, the current plan is to switch to a 2-factor authentication system.

Status of the Project:

Since I changed the project midway, the following is what I tried to make before.

https://github.com/jsheng0722/Cpts_427

Milestones yet to be accomplished and proposed time line to accomplish the remaining milestones:

Milestones	Plans	Timeline(Due)
~~1~~	~~Configure the environment and prepare to design the application for user login.~~	~~7/17~~
2	Complete the first factor	7/20
3	Complete the second factor	7/23
4	Summarize and prepare for presentation	7/24
